**EARN, transact
& Build with
ALL coin!**

Alltra is a fully developed, EVM based, independent blockchain ecosystem, having their own coins, tokens, marketplace, projects, and exchange, all hosted on the **Alltra Chain Network (Alltra Chain)**. It enables users to buy, sell, swap, and develop.

HYBX & Alltra World

ALL Network

Alltra's coins and token suite is comprised of – the gold – backed, hard – tethered stable coin 11::11, the Hyper-Barter Exchange (HYBX) Token, the ALL Coin, and the Alltra Dollar Coin (Alltra Dollar).

The Alltra coins and tokens are already in use across multiple exchanges.

They are all designed specifically to complete the ecosystem, amongst others to stimulate commerce, advancements in DeFi, maximising usage of Alltra Chain, promoting business marketing efficiencies, and developing projects.

Payment may be in money or in kind, or in some instances a combination of these.

The payment for sales between members of a trade exchange is the debiting of the recipient's account and the payment received is the crediting of the supplier's account.

HYPER-BARTER EXCHANGE

HYB-ALL MERCHANT HUB

WHAT IS HYPER-BARTER EXCHANGE?

THE HYPER-BARTER EXCHANGE IS A DECENTRALISED MARKETPLACE PLATFORM WHERE USERS CAN BUY AND SELL GOODS AND SERVICES USING THE FUNCTION OF THE HYBX TOKEN. AS A CROSS CHAIN TOKEN ON ALLTRA CHAIN.

THE PLATFORM UTILISES SMART CONTRACT TECHNOLOGY TO ENABLE SECURE, TRANSPARENT, AND DECENTRALISED TRANSACTIONS AND INTERACTIONS BETWEEN BUYERS AND SELLERS. A POWERFUL APP AND BUSINESS DIRECTORY PLATFORM THAT PROVIDES A USER-FRIENDLY MARKETPLACE AND BUSINESS MARKETING SYSTEM FOR THE COMMUNITY TO THRIVE IN.

What is BARTER...

WELL!

There are some sophisticated forms of bartering in the marketplace, both locally and internationally. These arrangements are typically controlled by member-only organisations, with credit units the medium of exchange.

The terms 'exchange', 'barter exchange', 'trade exchange' and 'countertrade exchange' are used to describe the organisation that manages the bartering operation. <https://alltra.global>

Various terms are used to refer to the medium of exchange, such as units, credits, trade dollars or barter dollars. The most used term is trade dollar. Or in our Case **ALL Dollar and HYBX**.

Trade exchange operations vary in size and sophistication, from community-based to business-based operations.

A trade exchange provides its members with a trading account for the purpose of recording member transactions.

(ALL Network BLOCKCHAIN)

The trade exchange credits or debits the account each time a member makes a sale or purchase, respectively.

The account is also debited for fees the trade exchange charges its members. The trade exchange may buy and sell, acting as a member with its own trading account.

We AIM to provide Low to fee free transactions.

What is BARTER...

Quote From The ATO (Australian Taxation office)

Barter transactions are assessable and deductible for income tax purposes to the same extent as other cash or credit transactions.

When an entity that is a member of a trade exchange makes a taxable sale to another member, there is a liability for tax, including GST.

Payment may be in money or in kind, or in some instances a combination of these.

The payment for sales between members of a trade exchange is the debiting of the recipient's account and the payment received is the crediting of the supplier's account.

What is BARTER...

When an entity that is a member of a trade exchange makes a taxable sale to another member, there is a liability for tax, including GST.

Payment may be in money or in kind, or in some instances a combination of these. The payment for sales between members of a trade exchange is the debiting of the recipient's account and the payment received is the crediting of the supplier's account.

Value of supplies made through a trade exchange need to be considered when determining whether an entity meets the GST registration threshold and is required to register for GST.

For example, if an entity has \$60,000 of cash transactions and barter transactions valued at \$20,000, it meets the GST registrations threshold.

As a general rule, when valuing the payment arising from barter or countertrade transactions, we will accept a fair market value as adequately reflecting the money value or arm's length value, as applicable. In most cases, we will accept as a fair market value the cash price that the taxpayer would normally have charged a stranger for the services or for the sale of the goods or property.

What is BARTER...

The rules of most business-oriented countertrade organisations specify a rate for converting credit units into an Australian dollar equivalent.

Customarily the rules specify that each credit unit has a value equivalent to one Australian dollar.

Where the monetary value worked out using the rate specified in the rules represents a fair market value of the goods or services provided, that rate is to be applied when valuing the payment.

In all other cases, a conversion rate that values the goods or services provided at their fair market value is to be applied when valuing the payment.

Transactions where the values are set at artificially high levels for the purpose of establishing an inflated income tax deduction may indicate fraudulent activity.

Parties to transactions that involve inflated credit unit values may have consequences other than an adjustment to the amount of income returned or the amount of income tax deductions claimed.

What is BARTER...

Personal purchases are not deductible for income tax purposes and a GST credit cannot be claimed, whether the purchase is made using trade dollars or Australian currency.

WHAT IS HYBX Then?

HYBX Token -

is used in the same way as a promissory note in HISTORY;

How?

The HYBX token is built to acknowledge the value of gold you are holding in 11::11. Alltra have created an issuance protocol and user interface (UI) that allows 11::11 owners to receive an issuance of HYBX tokens every time they purchase, or increase their balance of 11::11.

HYBX tokens can then be used to trade with and participate in the greater crypto market. It also has the added benefit of Alltra Dollars.

What is Hyper-Barter Exchange?

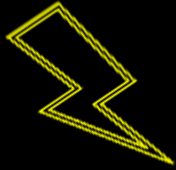

The Hyper-Barter Exchange is a decentralized marketplace platform and online “Business Directory” where users can buy and sell goods and services using the function of the HYBX token.

As a cross chain token on Alltra Chain, the platform utilizes smart contract technology to enable secure, transparent, and decentralized transactions and interactions between buyers and sellers.

What is Hyper - Barter...

A powerful App and Business directory platform that provides a user-friendly marketplace and business marketing system for the community to thrive in.

11::11

This coin is 1/1000th of one (1) ounce (oz) of fine gold.

11::11 is backed by an ongoing, incoming gold supply through forward purchase agreements for the physical supply of gold on a monthly delivery schedule.

GET STARTED HERE

Simply purchase 11::11 and Airdrop your HYBX to get started.

Who for? General crypto traders, savers, merchants, investors, consumers.

Minimum investment: \$50.00 AUD. There are also over the counter (OTC) packages available for wholesale investors.

dAPPS to help you Trade

GET STARTED HERE

Connect to the ALL Network
ADD 11:11 and HYBX to your wallet

Use this dAPP. and add ALL Network
to your Metamask.
ADD 11::11 (11:11) and HYBX

TRANSFER YOUR HYBX
from the Ethereum Mainnet
straight to ALL Network

- Become a Validator - Launch a Project
- Find New Customers
- Trade your surplus capacity

Once you have transferred 11:11 to
your WEB3 wallet (MetaMask)
Next AIRDROP Your HYBX release!!

11:11 Is your GOLD! You should treat
it Like your Reserve..... Every time
you receive New 11::11 (11:11) you
may release NEW HYBX (this is the
only way HYBX can be minted) **HYBX**
is your Spend – swap – trade – play
token.

HYBX Explained...

HYPER-BARTER EXCHANGE

How would HYBX work in your Business ?

Advanced QR Builder: Users can leverage our QR Builder to create customized QR codes for any URL, using various filters and options. This enables them to enhance their marketing strategies and drive more traffic to their online presence.

Custom Domain/Subdomain Support:

Users can showcase their business websites and vCards using their own custom domain, subdomain (`{username}.your_domain_name`), or path-based URL (`your_domain_name/{username}`).

Payment Gateway Integration: Seamlessly collect payments through various payment gateways. Importantly we support native blockchain coin payments ALLTRA Dollar, allowing users to transact using a single blockchain at a time.

Additional Features:

Take advantage of convenient features like Drag & Drop Menu Builder and Popup Banner Builder to enhance the functionality and aesthetics of the websites. Our Website Builder solution empowers users to create professional, feature-rich websites with ease. Start offering this powerful tool to your customers today and help them establish a strong online presence.

You can also use some more cool features like – Drag & Drop Menu Builder, Popup Banner Builder etc...

HYBX Explained...

HYPER-BARTER EXCHANGE Function!

To receive and use Alltra Dollars, you simply transfer your HYBX to your Alltra Dollar account.

The HYBX will be locked in escrow as security. ALLTRA's protocol then issues you the ALL\$ equivalent at the current exchange rate of HYBX tokens to Australian Dollars.

For example, if 20 000 HYBX tokens transferred into escrow and valued at AUD \$2000.00, the HYBX community will issue ALL\$2000.00 for owner to use.

ALL\$ is earned back as a Merchant or business after you spend it by offering your products or services to the other Members in the Exchange community.

ALL\$ can also be earned by consumers as REWARD's offered by Merchants using HYBX (ALL\$) to grow their business, through customer Loyalty programs, rewards and Gamification of competitions.

What is ALL Coin?

The ALL Coin is the native token of Alltra Chain that allows for decentralised Alltra Dollar

(ALL\$): is used as transaction currency (money) in the Hyper-Barter Exchange Marketplace
